

Microsoft Center of Excellence

www.imtacsoft.com

imtac, incorporated in the Sultanate of Oman, is a leading company in the region providing IT, clinical, educational, tele-communications and traffic management technologies. Over the last three decades **imtac** and its subsidiary companies have successfully implemented large multi dimensional projects in the region. **imtac**'s credentials include world class infrastructure, processes and technology services.

imtac has incorporated a subsidiary company in India. **imtac india** located in Sigma Soft Tech Park in Whitefield Bangalore, provides Offshore Development Centre (ODC), BPO/KPO services for GCC clients as well as acts as Centre of Excellence for the group companies. **imtac india** portfolio of expertise includes Open Source ERP, Microsoft technologies and Mobile applications.

We undertake projects only after extensive deliberations on the technical feasibility and applicability of the deliverables in real life environment of our customers. These deliberations are done with extensive consultations with the senior management of our customers and highly experienced personal from **imtac**. The company aims to create credentials and track record of successfully completed IT projects.

Consulting

Our subject matter experts are experienced, motivated and passionate about giving you solutions that are least cumbersome and most effective.

Implementation

Deep learning from our 32 years of existence, continuous refinement of implementation processes and methodologies and highly predictive outcomes. Always **"On Budget"** and **"On Schedule"**.

Development

imtac has undergone a cultural shift on software development to product engineering. We believe **"Architecture"** is the foundation, **"Design"** and **"Business Algorithms"** forms the structure.

Customization

Smoothing a product functionality with the power of knowledge on a suit of technology tool sets, by a highly skillful team of specialists is a delight to our customers.

Integration

A rich experience in a large spectrum of technologies allows team imtac to make any heterogeneous system to co-exist to deliver the business value our customers are seeking.

Migration

We understand that the data from the past is precious. Our migration methodology effectively addresses variety and high volumes of data from multitude of sources.

System Maintenance

SLA based, our MTBF (Mean Time Between Failures) and TAT (Turn Around Time) would be comparable with the best in the industry.

User Support

Our customers demand different levels of support and we have organized our self to delivery **"Silver"**, **"Gold"** & **"Platinum"** levels.
